I. Main Aim of the ELGPN

- The ***European Lifelong Guidance Policy Network*** aims***to promote cooperation at Member State level on*** lifelong guidance and to propose appropriate ***structures and support mechanisms*** in implementing the priorities identified in the Resolution on Lifelong Guidance (2004).
- The ***main aim*** during the ***initial phase*** is to establish the network infrastructure and through the ***peer learning activities to identify in more details the areas of guidance where national developments can be enhanced by means of the ELGPN.***

I. Main Aim of the ELGPN

- The nature, tasks and structures of such mechanisms should be related to the needs within each country, and are accordingly likely to vary considerably.
- The tasks of this work package are driven by the interest of Member States which do not currently have a national co-ordinating mechanism and from the results of the Finnish EU-Presidency lifelong guidance policy conference 2006 and from the experiences of the two EU Joint Action projects.
