EUROPA È LIBERTÀ

THE SWALLOW...

The swallow is a symbol of the journey, hope, freedom and friendship.

- The head pointing upwards, to point to the maximum by looking at the needs of others.
- The wing symbolizing guidance, respect and protection in the common house.
- The tail, which distinguishes the swallow from other birds, symbolizing the diversity among us, Europeans who also remain united.

**A few words about the
hosting organization...**

The Institute for the Development of Vocational Training for Workers (ISFOL) is a **National Research Institute** with a specific focus on **vocational education and training (VET), employment and social policies** and a strong commitment to promoting employment, social inclusion, skills and human capital development as well as at fostering growth and innovation.

Isfol reports to the Ministry of Labour and Social Policy and provides support to the central government and local authorities. **Isfol** also acts as **in-house agency** for the Ministry and is entrusted with the management of relevant national contracts in its fields of expertise.

In fact, since the 1990s, ISFOL has been providing technical assistance to EU-funded programmes and initiatives (PETRA Community Action Programme; EMPLOYMENT and ADAPT Community Initiative Programmes (CIP); EQUAL CIP and Leonardo da Vinci).

Isfol is a member of the following European networks:

- National Reference Point for Quality;
- National Coordination Point for EQF (European Qualification Framework);
- National Coordination Point for Europass;
- National Euroguidance Centre;
- Co-ordinator of the ReferNet National Consortium.

Isfol is Local Contact Point for the Eurodesk Network. At present, **Isfol** is a National Agency Erasmus Plus - Leonardo da Vinci Sectoral Programme. The Institute is National Evaluation Structure for the European Social Fund (ESF).

Isfol cooperates with the European Commission, [Cedefop](#) and the [Eurofund](#) as well as with other international organizations ([OECD](#), [ILO](#), etc.) and several national research centres and agencies ([CEREQ](#), [BIBB](#), etc.).

Isfol is a member of the national statistical system ([SISTAN](#)) and produces statistical information.

Isfol carries out research, surveys and TA activities in four core areas:

- **Labour market and professions**

Analysis of labour market dynamics, also focused on specific target groups and sectors.

Analysis of employment and career guidance services, industrial relations and social dialogue.

- **Social Inclusion**

Analysis of social inclusion policies, aimed at both general and specific target groups.

Development and implementation of models for the assessment of poverty.

Monitoring welfare services.

Analysis of anti-discrimination and equal opportunities, particularly those relating to gender equality.

- **Vocational education and training**

Analysis of VET systems and policies.

Programme and policy monitoring and impact evaluation.

- **Skills analysis and forecasting**

Occupation and skills needs forecasting.

Skills analysis, models for skills assessment and validation.

Assessment of adults competences (PIAAC).
