CMS development at the Swedish Employment Service

- During 2014, Arbetsförmedlingen, the Swedish Public Employment Service (PES), completed an ESF financed pre-study about *making skills and competencies visible in labour market matching* (SKiM) to lay the foundations for an ESF funded project about **Competency Matching**
- The aim of this project is to make visible, clarify and develop skills and competencies for an improved labour market matching.
- Among the main focus areas are guidance and the job seeker's development.
- The development of career management skills is included in the process.
